Begging . . . . .	3
Carrying concealed weapons . . . . .	4
Minors out after eight p. m., . . . . .	2
Keeping bawdy house . . . . .	5
Found in bawdy house . . . . .	11
Fighting . . . . .	18
Peddling without a license . . . . .	5
Resisting Police Officer . . . . .	4
Selling liquor on Sunday . . . . .	2
Exceeding speed limit . . . . .	4
Vehicles remaining on streets longer than certain period of time . . . . .	3
Vehicles neglecting to stop while passengers alight from cars . . . . .	3
Total . . . . .	835

#### POLICE DEPARTMENT—

Cost of maintaining police department . . . . .	\$11,522.30
Amount collected in fines and forfeitures . . . . .	5,736.20
Value of prisoners' labor on streets @ \$2.75, rate paid in street department . . . . .	358.88
Number of days prisoners worked on streets . . . . .	130 1-2

### GENERAL STATISTICS

#### From Report of City Physician, R. J. Pilkington, for Year 1913

#### BIRTHS—

Total number (male) . . . . .	127
Total number (female) . . . . .	128
Total . . . . .	255

White .....	249
Yellow..	6
<hr/>	
	255

Based on a population estimated at 14,000 it gives a birthrate of 18.3 per 1000.

#### CONTAGIOUS AND INFECTIOUS DISEASES

Measles .....	35
Diphtheria (with one death) .....	6
Typhoid Fever (with one death) .....	5
Small-pox .....	2
Tuberculosis (with 18 deaths) .....	18

#### MORTALITIES CLASSIFIED BY TYPES—

Cause—	Number of Deaths
Violence: Accidents, burns, etc .....	4
Accidental drowning .....	5
Suicide .....	6
Murder .....	2
Contagious diseases (tuberculosis, typhoid, diphtheria) .....	23
Heart and vascular system .....	19
Brain and nervous system .....	21
Intestinal system (not including typhoid) .....	11
Malignant, cancer, etc .....	10
Kidneys and genite urinary system .....	7
Respiratory system (not including tuberculosis) .....	13
Diseases of early infancy .....	9
Puerperal .....	3
Old age and Sinility .....	3
Purulent infection and Septicaemia .....	2
Skin and cellular tissues .....	1
Total .....	139

#### SUMMARY—

139 deaths, of which 89 were males and 50 females.

Using the estimated population of 14,000 as a basis, this gives us an approximate death rate of 10 per 1000.

This is high for Oregon, but is accounted for by our state officials by the fact that all deaths are reported from Clatsop county and to our extremely hazardous leading industries, namely, fishing and logging.

Eliminating the deaths of non-residents, we have a rate of 7.57 per 1000.

#### CITY SURVEYOR'S OFFICE

From Report of Surveyor, L. C. Rogers

#### YEAR ENDING DECEMBER 31st, 1913—

Area of City .....	4,010 acres
Land .....	3,110
Water .....	900

#### STREETS AS DEDICATED—

Total length .....	108 miles
--------------------	-----------

#### TOTAL STREET IMPROVEMENTS—

Concrete walks .....	5.7 miles
Concrete curbs .....	6.1 miles
Concrete gutters .....	5.1 miles

Wooden walks .....	10.56 miles
Wooden Curbs and gutters .....	7.26 miles
Plank streets (laid on earth) .....	4.20 miles
Macadam pavements .....	12.1 miles
Concrete pavement .....	0.15 miles
Bitulithic pavement .....	0.45 miles
Trestle .....	4.50 miles
Streets graded but not improved .....	3.38 miles
10-inch sewers .....	1.6 miles
12-inch sewers .....	3.24 miles
14-inch sewers .....	0.13 miles
18-inch sewers .....	0.8 miles
Wooden drains .....	1.51 miles

#### **TOTALS—**

Improved streets .....	24.81 miles
Side walks .....	20.76 miles
Sewers .....	7.28 miles

### **FIRE DEPARTMENT**

#### **Comparative Statement from C. E. Foster, Chief**

The auto at headquarters, during the year, answered 66 alarms, run 123 miles in doing so and the cost of maintenance was a total for the year of \$60.00.

The auto at hose No. 3, answered 37 alarms and covered 43 miles, total cost of maintenance during year, \$44.70.

The auto at hose No. 1 was placed in service April 20, 1913; it has answered 24 alarms, covered 28 miles, total cost of maintenance for the year, \$24.65.

By way of comparsion with the above statements, I would say the cost of shoeing the team of horses at hose No. 4 for the year 1913 was \$52.00.

The passing of the electric wiring ordinance last year was in my opinion, one of the best acts that could have been done; during the year the underwriters gave a 5 per cent reduction on account of the additions that have been made to our department during the last two years. I endeavored to get a 20 per cent reduction but was not successful in that, the conditions not being favorable from an insurance point of view, however, with the filling in of our business streets we will be able to get a reduction in the rates.

The total loss from fires during the year was .....	\$3,873.00
Insurance paid on losses .....	2,793.00

Net loss over insurance paid .....	\$1,080.00
------------------------------------	------------

Average loss per fire .....	44.52
-----------------------------	-------

Average loss per fire over insurance paid .....	12.42
---	-------

Number of alarms answered during year, .....	87
--	----

Fires were extinguished as follows: With chemical streams, 38; with hydrant streams, 10; with buckets, 6; number of feet of hose laid at fire, 16,950; number of gallons of chemical used, at fires, 800.

### **AUDITOR'S SUPPLEMENTARY REPORT**

I respectfully call to the attention of the Honorable Mayor and Common Council the fact that the Chief of Police of the City of Astoria, acting under instructions from the Common Council, upon warrants issued by the Auditor and Police Judge, sold property to the city for delinquent street and sewer assessments and that such lots and parcels of land are marked

upon the Docket of City Liens as sold to the City of Astoria, giving amount and date of sale.

Warrants issued to contractors in payment of improvements are outstanding and where property has been sold there will be no money in the fund to take up such warrants until the person, whose property has been sold to the city, shall redeem same, which usually happens when the owners can dispose of their property and must furnish an abstract of title to the purchaser.

Some of the warrants issued have been running for four, five and in some cases going on six years, as is the case with Irving avenue from the east line of Shively's to 40th street where property was sold to the city last fall amounting to the sum of \$11,580.12.

There are warrants outstanding against said Irving avenue in the sum of \$6,352.22.

Some steps should be taken by your honorable body to relieve the situation.

#### **GENERAL FUND WARRANTS**

There were outstanding General Fund Warrants December 31, 1909, \$88,493.25; the amount of General Fund Warrants outstanding December 31, 1913, was \$156,718.18; an increase during four years of \$68,224.93

The city issued during the year 1913 General Fund warrants in the sum of \$107,682.88; this is \$22,846.95 in excess over amount issued during the year 1912. This increase of General Fund Warrants is bound to occur as long as warrants are ordered drawn in payment of claims for which no provisions are made in the levy of taxes and amounts appropriated for various departments permitted to be overdrawn.

The City of Astoria paid during year 1913, account of litigation, \$7,525.24; amount appropriated for year, \$1000.00.

Assessments paid during year 1913, upon property owned by the city, by School District No. 1, Water Commission, \$2,677.06.

No appropriations made therefor and not considered either in levy made for year 1913 or 1914.

General Fund warrants issued during year 1913, to cancel special fund warrants, \$21,449.59; no provision made therefore either in 1912 or 1913 levy.

Installments granted during year 1913, and General Fund warrants issued to contractors account thereof as provided by the charter, in the sum of \$14,174.42; no provisions made or account taken thereof in the 1912-1913 tax levy.

From the foregoing will be seen that General Fund warrants were issued during year 1913 in the sum of \$47,826.31 and no provisions made in the levy or appropriations made to take care of same.

#### **POLICE COURT**

835 cases were tried and disposed of in police court during year 1913. I desire particularly to call attention to the idle and dissolute persons whom the chief of police and officers have occasion to apprehend, many of whom are vagrants, not from choice but because of their inability to secure employment. They invariably enter a plea of "guilty" having no other alternative as in each case they have no visible means of living or lawful occupation by which to earn a living. These men are sentenced from 20 to 60 days in the city jail, and if compelled to work on the city streets as provided by ordinance, the city has the benefit of their labor for that length of time, and while it is true that the sentence is imposed as a punishment for a violation of an ordinance, the fact remains that when

these unfortunates have served their time they are immediately, upon regaining their liberty, in the same condition and position as they were when first arrested.

The city should either allow a small amount per day for labor performed by prisoners or provide an emergency fund and place a certain amount in the hands of either the Committee on Health and Police, the Chief of Police or Police Judge, so that a prisoner after working on the streets of the city, when his sentence expires, would at least have enough to pay his fare to the next station.

I respectfully submit this to your careful consideration.

In conclusion, I herewith extend my thanks to the Honorable Mayor, City Council, City Attorney, and City Officials in general, with whom I have had the honor of associating, for their uniform courtesies and assistance given me.

I have the honor to be,

Very respectfully yours,

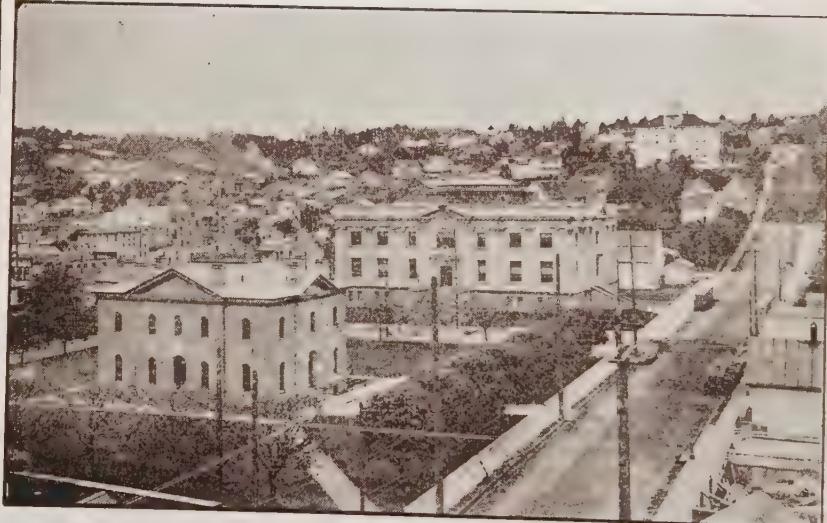

**OLOF ANDERSON,**

Auditor and Police Judge  
of the City of Astoria.

ASTORIA—THE OLD AND THE NEW

POST OFFICE COUNTY COURT HOUSE McClURE SCHOOL

## ASTORIA'S PRESENT DEVELOPMENT

The City of Astoria has under construction a system of modern public docks at Smith's Point, for which Clatsop County has provided a \$400,000 bond issue and \$100,000 additional from tax revenue.

The public docks are being constructed to facilitate shipping on the Columbia River. Many private wharves are already in existence, and additional private docks are to be constructed.

## ASTORIA'S RECLAMATION SERVICE

This project will represent an expenditure of approximately \$2,000,000 and will include the construction of a bulkhead or retaining wall along the water front, the first unit including the district from 9th Street to 23rd Street filling in the tide flats to high tide level, raising the streets to established grade and placing hard surface pavements thereon, establishing a trunk line sewage system, re-establishment of the water and gas mains, electric light and telephone poles and the widening of one or more of the principal streets.

## WHAT ASTORIA HAS

A population of 14,000 industrious and healthful people; Seventeen churches; Five public schools; Two Private Schools and a Business College; Modern High School; Fine Hospital; A County Experimental Farm; City Park; Public Playground; Beautiful Roads; Fine gravity water system with 110,000,000 gallon reservoirs, capacity 4,000,000 gallons per 24 hours; Paid Fire Department; Free Delivery System; four good hotels; Customs House; Post Office; City Hall; County Court House; Public Library; Chamber of Commerce; Young Men's Booster Club; Humane Society; Western Union and Postal Telegraph; Wireless Station; Long Distance and Local Telephone; Electric Street Railway System; four moving picture theatres; four substantial banks and postal savings, the combined deposits of which will total \$4,000,000; annual clearance, \$150,000,000; four sawmills with an annual output of approximately 200,000,000 feet; Elk's Temple, cost \$75,000; Odd Fellows' Temple cost \$50,000; proposed Masonic Temple, cost \$75,000; Y. M. C. A. Building to be completed this year, approximate cost, 35,000; Opera House.

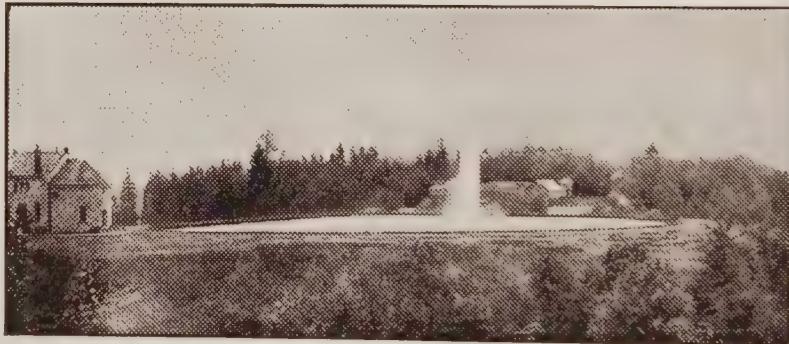

The world renowned salmon industry, which made the "Royal Chinook" famous. This industry has an annual output of \$6,000,000 on the Columbia River.

Astoria has steamship lines running to Alaska, California, the Orient, and European points. The Spokane, Portland and Seattle Railroad, with transcontinental connections; the O—W. R. & N. Company Steamboat lines on the Columbia; a first class flouring mill; three creameries backed by a large fertile dairy country; two clam canneries on the west side. Four newspapers and one exclusive job printing plant; three boat building plants. Finest fresh water harbor in the world. Fort Stevens and Fort Columbia Barracks at the mouth of the Columbia River; Two Government Life Saving Stations; Government Quarantine Station; Light House tenders. Quartermasters and U. S. Engineers' Steamers.

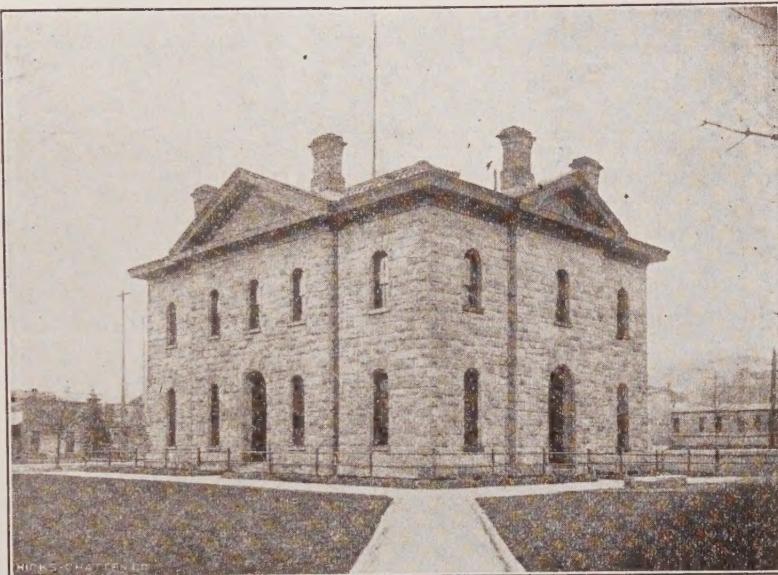

Four summer resorts along the Pacific Ocean 10 miles from the City, County Fair Grounds at Gearhart Park; prosperous small fruit farms; Cranberry Industry; Stock Ranches; Sheep raising and vast agricultural development.

ASTORIA MILLING AND GRAIN CO. FLOURING MILL  
ASTORIA'S LATEST MANUFACTURING ENTERPRISE  
Capacity 500 barrels per day

One of Astoria's Gravity system Reservoirs  
Capacity 6,000,000 gallons

U. S. CUSTOM HOUSE AND POST OFFICE

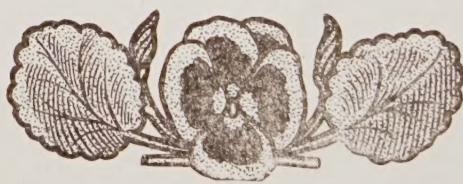

This building is soon to be replaced by a model federal building. Cost \$125,000.
